

How to use

Login

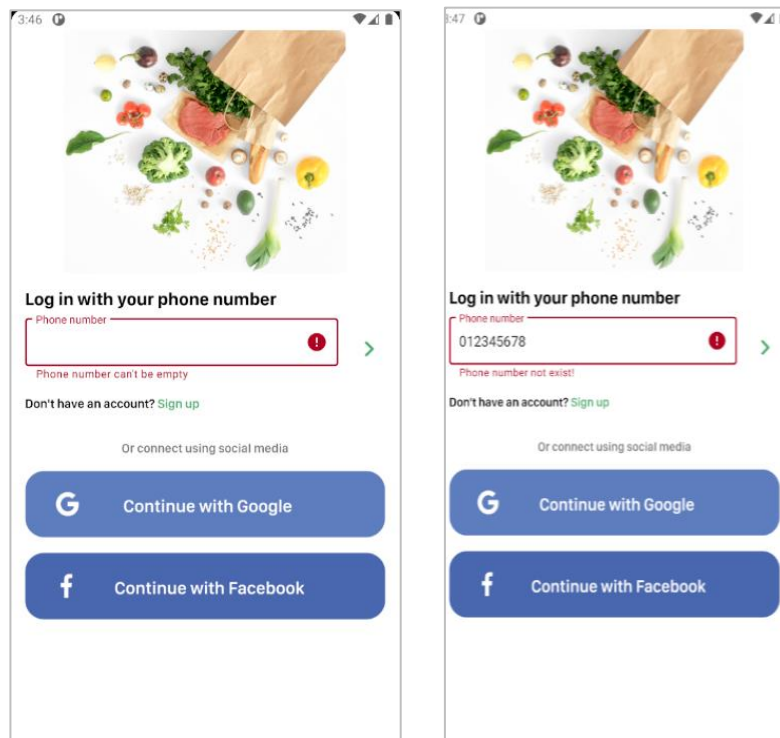

Step for login:

1. Open app

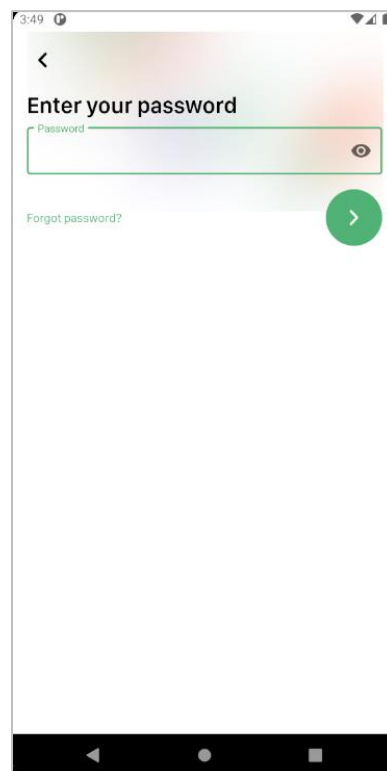

To use the app, user must first log in using their account. An account validation consists of two part: phone number and password. In this screen, user have to enter their phone number. Then, user touch to next button to navigate to the second screen.

If user don't have any account, they can touch the Sign up button

Error appear when you do not fill in the field

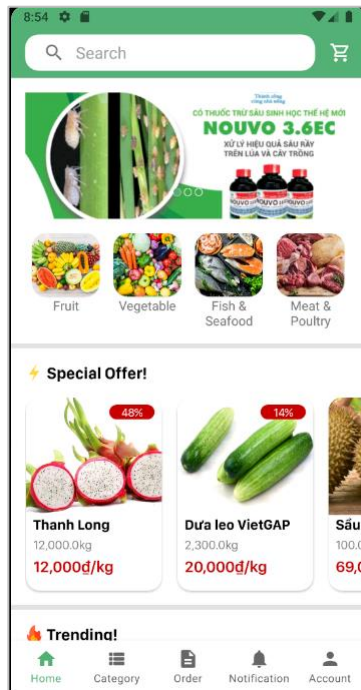

2. Input password

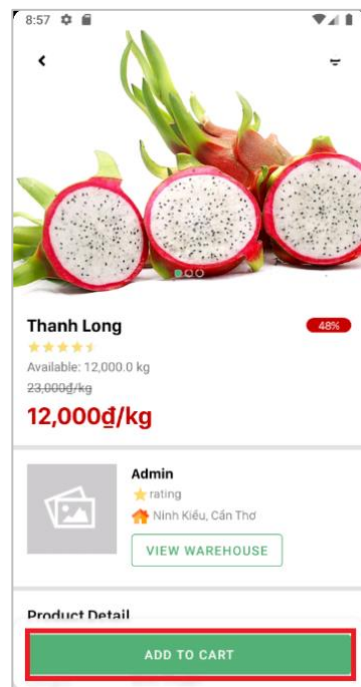

Buy Product

Step for buy product

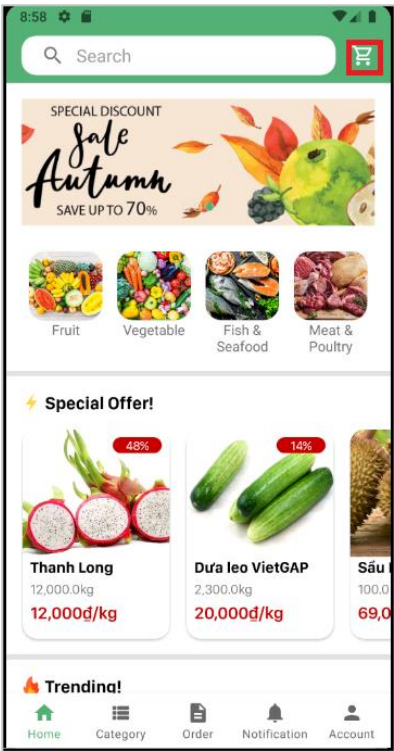

1. Select product

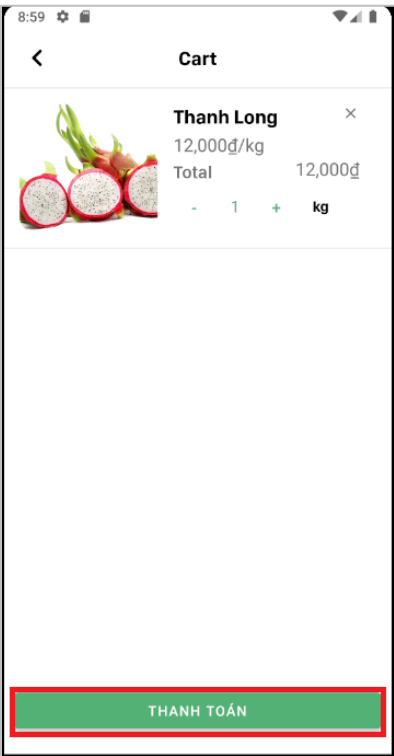

2. Click add to cart button

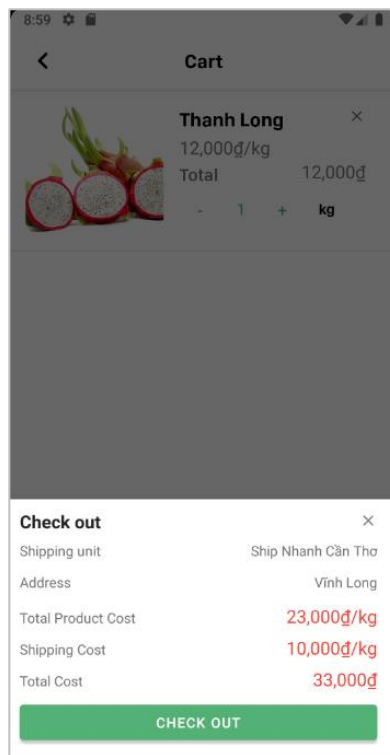

3. Go to Cart

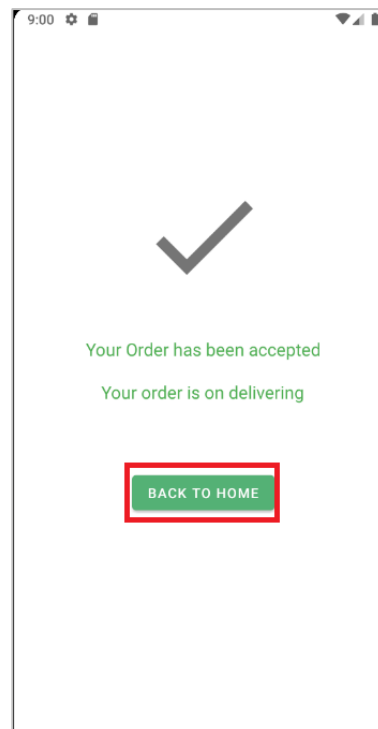

4. Click checkout button

5. Then checkout

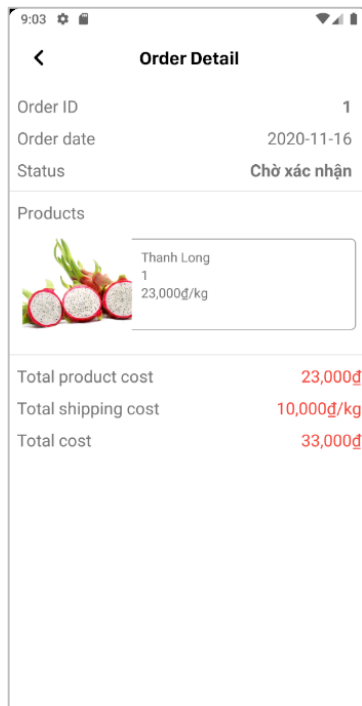

6. Return to home page

7. Choose an order

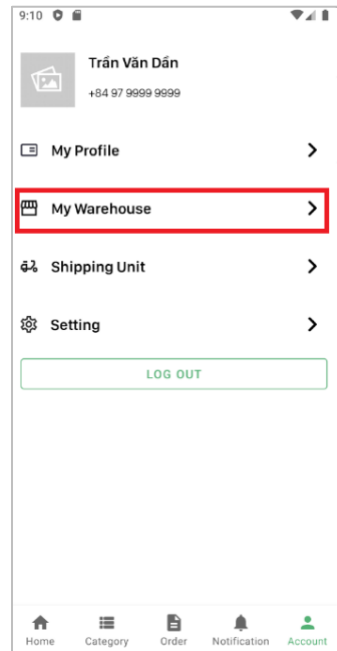

8. Click view order to sell order detail

Add warehouse

Step for add warehouse

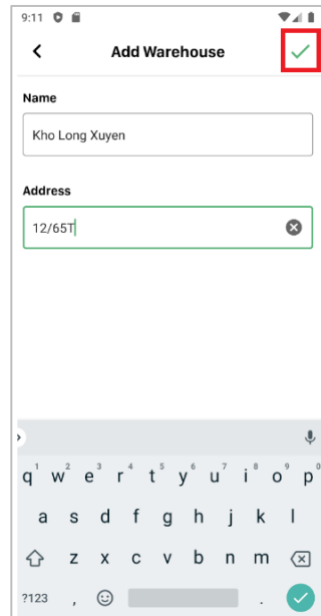

1. Go to account, then choice my warehouse

2. Click button plus on the top right

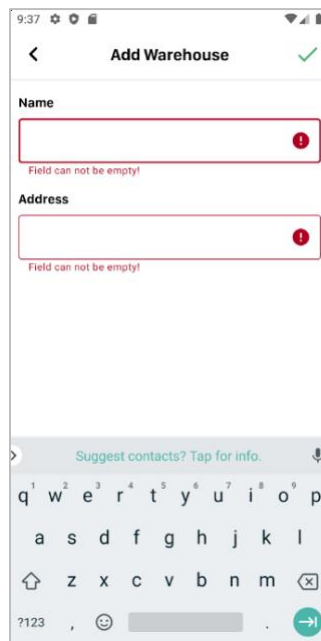

3. Enter name and address then click check button on top right

A screenshot of a mobile application interface titled "Add Warehouse". The form has two input fields: "Name" and "Address". The "Name" field contains the text "Kho Long Xuyen". The "Address" field contains the text "12/65T". A green checkmark icon is visible in the top right corner of the form, indicating successful submission. A keyboard is visible at the bottom of the screen.

4. Error appear when you do not fill in the field

A screenshot of the same "Add Warehouse" form, but with both the "Name" and "Address" fields empty. Red error messages "Field can not be empty!" are displayed below each field. A red exclamation mark icon is visible in the top right corner of the form, indicating an error. A keyboard is visible at the bottom of the screen.

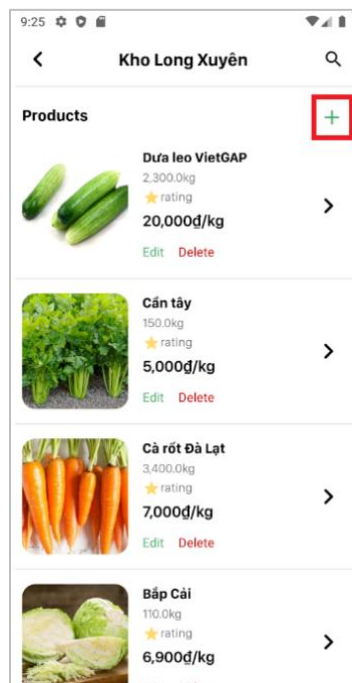

Add product

Step for add product

1. Select warehouse

2. Click plus button on top right

3. Fill information

The screenshot shows a mobile application interface for adding a product. The form includes fields for 'Name' (containing '2323'), 'Origin' (containing 'USA'), 'Category' (a dropdown menu set to 'Fruit'), and 'Description' (containing 'None'). A keyboard is visible at the bottom, indicating the 'Description' field is active. The 'Picture' field has a camera icon. The status bar at the top shows the time as 9:26.

4. Error appear when you do not fill in the field

The screenshot shows the same 'Add Product' form, but with validation errors. The 'Name', 'Original Price (VND per kg)', 'Current Price (VND per kg)', 'Amount (kg)', and 'Origin' fields are all empty and have a red border with a red exclamation mark icon. Below each empty field, the text 'Field can't be empty!' is displayed in red. The 'Category' dropdown menu is still set to 'Fruit'. The status bar at the top shows the time as 9:42.

5. Take a picture

A screenshot of a mobile application's 'Add Product' form. The form has a title bar with a back arrow, 'Add Product', and a green checkmark. Below the title bar, there are several input fields: a text field with '2323', a text field with 'USA' labeled 'Origin', a dropdown menu with 'Fruit' labeled 'Category', and a text field with 'None' labeled 'Description'. The 'Picture' field is at the bottom, showing a camera icon which is highlighted with a red square. Below the form, a keyboard is visible with a green checkmark button at the bottom right.

6. Click check button for insert

A screenshot of the same 'Add Product' form, but now filled with data. The 'Name' field contains 'Apple', 'Original Price (VND per kg)' contains '130000', 'Current Price (VND per kg)' contains '140000', 'Amount (kg)' contains '2323', 'Origin' contains 'USA', and 'Category' contains 'Fruit'. The green checkmark button in the top right corner is highlighted with a red square.
